

Electronic Technician A

Job Summary:

We are seeking an Electronic Technician to join our team. Electronic Technicians build up, calibrate, test, troubleshoot and repair electrical and electronic components, circuits, assemblies, and systems. The ideal candidate is detail-oriented, possesses strong organization skills and works well under pressure and with minimum supervision.

Job Responsibilities:

- Fabricate, calibrate, test, troubleshoot, and repair electrical and electronic components, circuits, assemblies, systems, prototypes, etc. per applicable drawings and specifications.
- Inform Assemblers of problems found during checkout and calibration of circuits, assemblies, etc. and train them as required to correct any Quality deficiencies.
- Provide training and assistance to Assemblers and less experienced Electronics Technicians as required.
- Conduct environmental tests such as temperature, vibration, and shock tests on components and completed assemblies.
- Work with Design Engineers and Field Engineers to build up and test prototype systems and mock ups.
- Perform additional duties as required.

Job Requirements:

- High School graduate or equivalent preferred.
- Minimum four years' experience in electronics assembly and repair.
- Proficient in the use of standard electronic test equipment.
- Familiarity with industry standard electronic assembly and repair techniques.
- Must possess a strong work ethic and organizational skills.
- Ability to be flexible and work well under pressure.
- Ability to read blue prints and data sheets
- Must be able to obtain an FAA Part 145 Repairman's Certificate for work performed in the Part 145 Repair Station.
- Familiarity with basic computer operation.

We offer an excellent benefits package, including life insurance, comprehensive medical and dental plan, profit sharing and retirement plan and 401(k) plan. Salary will be commensurate with experience, education and ability.

Qualified applicants should e-mail resumes to hr@howellinst.com.
